

Docket No. 2004P01470  
PCT/EP2005/050190  
Prel. Amdt. Dated August 18, 2006

**Remarks:**

The preliminary amendment is being filed in an effort to present an application in proper U.S. format and to present claims in proper U.S. claim idiom for examination.

The newly entered claims are fully supported in the original claims filed in the international application and in the claims submitted on January 18, 2005.

An early action on the merits is requested.

Respectfully submitted,
